

\*If your child is transitioning from 5<sup>th</sup> grade to Middle School in September:

Please consider whether your child is ready to fully participate in a program with older students who have already completed 6<sup>th</sup>-11<sup>th</sup> grade. There is a great transition in social, physical, emotional and intellectual maturity that comes to kids at this age. Because each child matures at a different pace, please consider whether your child would best fit with the grade school or the middle school/high school sections of the camps/workshops.. You know your child best, so give that careful thought when enrolling.
