

*If your child is transitioning from Kindergarten to First grade in September:

Please consider whether your child is ready to fully participate in a full-day program with older students who have already completed 1st – 5th grade. There are momentous differences between a Kindergarten and a First grade classroom day. We recognize that each child matures in mental focus, physical stamina and patience at a different pace. Some children this age can do well and some would do better with a half-day or Preschool option. You know your child best, so give that careful thought when enrolling.
